Location: Wishing Well Sanctuary
2710 10th Line
Bradford, ON
L3Z 3L3

Workshop

Everyone can communicate telepathically with other species. We've just lost the skills to do it. In these workshops, (re) learn how to talk with animals telepathically. The animals at Wishing Well Sanctuary will help teach us how to listen from our hearts.

Jennifer Tilk, animal communicator and Reiki Master, along with the animals at Wishing Well Sanctuary, will take us through various types of exercises and approaches to communicating with animals.

This workshop will provide:

- exercises to "be in the present moment" with animals;
- step by step approach to communicating with animals;
- ways to receive communications back from animals;
- opportunities to share communication stories and experience validation among attendees

We also explore deeper communication with animals and all beings, plants, trees, the earth. As well, we will discuss communicating with animals who have passed.

Time will be spent indoors and outdoors with the animals; please dress appropriately for farm and weather conditions.

To Register:

Call Jennifer Tilk at 905-440-0228 or email at jennifer@voicesfortheanimals.com

Jennifer Tilk

Jennifer has been practicing professionally for more than 10 years, although she has been talking with animals all her life. She developed further her telepathic communication skills by taking Level I, II, and Mentoring at Spring Farm Cares, under animal communicator pioneer, Dawn Hayman. Jennifer continues to visit Spring Farm Cares annually for retreats and workshops.

Always interested in the environment and nature, Jennifer grew up with animals, domestic and feral, and pursued a B.A. and M.A. in Geography from the University of Toronto and York University, Toronto, respectively.

Since childhood, Jennifer had been working unofficially in feral cat rescue. In the past 15 years, since working in an office environment, she began volunteering more formally with feral cat rescue as the feral cats outside the office building began introducing themselves to Jennifer (they seemed to notice the invisible sign over Jennifer's head). Jennifer was able to communicate with the feral colony, especially in times when they were ill or required assistance.

Today, Jennifer holds a variety of consultation sessions with animals, from those who are missing, those who are rescued, or may have behavioural issues, to those who are transitioning or may have just crossed over. In recent years, Jennifer has been working more with animals - and their human companions - as the animals transition to the other side.

Jennifer is also a Reiki Master, through the International Center of Reiki Training. Jennifer provides healing sessions - hands on, or via distance - to both humans and animals.

Register Today!
Registration is limited.
